CASSETTE | SILENT ICONIC PANEL (OPTIONAL)

Silent-Iconic™

4-way Cassette Design Panel

A cassette panel that offers design integration as discreet as a more expensive ducted system

iF Design Award 2020

(Discipline: Product)

A new option

"Silent-Iconic"

Designed to match the interior, in harmony with the space. Compared with the ceiling-duct-type, the installation cost can be reduced.

The traditional selection

Ceiling Mounted Duct Type

Using this type, you can create a sense of luxury without being noticeable, but its construction costs are relatively high.

or

4-way Cassette type

Although the installation cost can be reduced, it may be difficult to match with the surrounding space due to the large presence of the indoor unit.

The design is well-matched to the space

It is designed to harmonize with the space by using a discrete low-profile air grille and darkening the contact space between the grille and the unit frame.

Low-profile air grille

Space between the air grille and unit frame

It is easy to clean the filter

It is easy to clean the filter by using the selecting the option with the elevation grille which enables the air grille to be lowered to floor level for cleaning through the use of a powered motor.

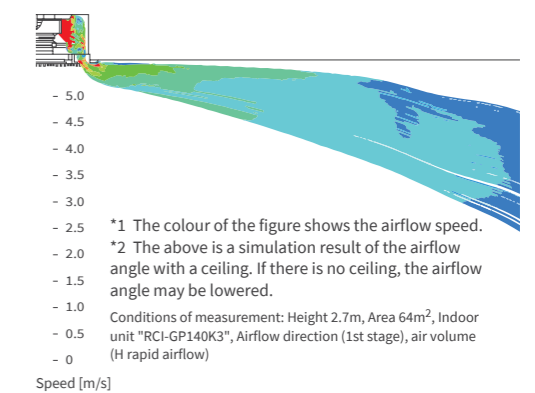

It is easy to install

The sliding corners make it easier to fasten the panel to the ceiling surface using screws.

Indirect airflow option

Using the compatible controller and motion sensor kit, users may select from direct or indirect airflow: indirect airflow detects the presence of people in the space and directs airflow around them so they do not directly feel the airflow.

Connection with ceiling surface

By using a low-profile frame connected to the ceiling, the unit is less visible, and harmonization with the ceiling surface is further enhanced.
